Introduction

Currently, I am studying at the University of South Bohemia in České Budějovice, specifically in the field of Business Informatics.

Among my work experiences is employment at Solirax CoreDev s.r.o., where I gained experience in VR and 3D modeling, as well as data analysis for Bosch GmbH.

Experience

03/2023 - until now

Internship

Bosch GmbH

Processing data using Python with the help of libraries numpy, pandas, and matplotlib.

Creating automated audits for data correction in T-SQL.

07/2021 - 07/2022

Internship

Solirax CoreDev s.r.o.

Creating 3D models for the virtual world of NeosVR.
